

G Historic and Cultural Resources

G.1 Inventory of Historic Resources

This appendix provides an inventory of historical resources identified and evaluated as part of the Environmental Assessment (EA) for the Washington, D.C. Optimization of Airspace Procedures in the Metroplex (DC OAPM) project.

G.1.1 Inventory

The inventory of historic resources includes all properties listed on the National Register of Historic Places (National Register) located within the General Study Area. Spatial data for these properties was downloaded from the National Park Service website (nrhp.focus.nps.gov/natreg/docs/Download.htm) in August 2012. This database was augmented in February 2013 with additional data reflecting newly listed properties on the National Register.

G.1.2 Consultation

On December 13, 2012, early notification letters announcing the preparation of an EA for the DC OAPM project and requesting additional information relevant to the project were distributed to relevant public officials, including the State Historic Preservation Officers (SHPOs) for the states located within the General Study Area and 17 Native American tribes. Responses were received from the following agencies:

- Pennsylvania Historical and Museum Commission, Bureau of Historic Preservation
- Maryland Historical Trust
- West Virginia Division of Culture and History
- Virginia Department of Historic Resources

The response letters are included in **Appendix A**.

G.1.3 Noise Exposure at Historic Sites

Table G-1 identifies the 2,690 historic resources identified within the General Study Area and for which noise was modeled. The inventory includes the name, address, and geographical coordinates (latitude and longitude) of each historic resource, and presents the calculated noise exposure values under 2011 existing conditions and Proposed Action and No Action conditions for 2013 and 2018.
