F.1 Inventory of Section 4(f) Resources

This appendix provides an inventory of potential Department of Transportation Act (DOT Act), Section 4(f) properties identified and evaluated as part of the Environmental Assessment (EA) for the North Texas Optimization of Airspace Procedures in the Metroplex (North Texas OAPM) project.

F.1.1 Inventory

The inventory of potential Section 4(f) properties is intended to include all public parks; recreation areas; wildlife and waterfowl refuges of national, state, or local significance; and properties listed on the National Register of Historic Places (National Register) located within the General Study Area (GSA). Spatial data for these properties was downloaded from federal, state, and local sources, identified in Table F-1.

F.1.2 Noise Exposure at Department of Transportation Act, Section 4(f) Properties

Table F-2 identifies the 712 potential Section 4(f) properties identified within the GSA and those for which noise was modeled. The inventory includes the name, state, and geographical coordinates (latitude and longitude) of each potential resource, and presents the calculated noise exposure values under 2011 existing conditions and Proposed Action and No Action conditions for 2014 and 2019.
