G.1 Inventory of Historic Resources

This appendix provides an inventory of historical and cultural resources identified and evaluated as part of the Environmental Assessment (EA) for the North Texas Optimization of Airspace Procedures in the Metroplex (North Texas OAPM) project.

G.1.1 Inventory

The inventory of historic and cultural resources includes all properties listed on the National Register of Historic Places (National Register) located within the General Study Area. Spatial data for these properties was downloaded from the National Park Service website (nrhp.focus.nps.gov/natreg/docs/Download.htm) in July 2012. This database was augmented in June 2013 with one additional property which was deemed eligible for listing on the National Register.

G.1.2 Consultation

On May 6, 2013, early notification letters and coordination packages announcing the preparation of an EA for the North Texas OAPM project were distributed to relevant public officials, including the State Historic Preservation Officers (SHPOs) for the states located within the General Study Area and two (2) Native American tribes. Four additional mailings (June 12, 2013, June 14, 2013, June 26, 2013 and July 9, 2013) were sent to additional recipients based on the responses to the first mailing. Recipients were requested to provide information relevant to the project. Responses were received from the following agencies:

- Texas Historical Commission
- National Park Service
- Bureau of Indian Affairs
- U.S. Department of Agriculture

The response letters are included in **Appendix A**.

G.1.3 Noise Exposure at Historic and Cultural Sites

Table G-1 identifies the 506 historic and cultural resources identified within the GSA and for which noise was modeled. The inventory includes the name, address, and geographical coordinates (latitude and longitude) of each historic resource, and presents the calculated noise exposure values under 2011 existing conditions and Proposed Action and No Action conditions for 2014 and 2019.
